Accept our hearty welcome, dear Reverend Father. Each new assignment we are taught to meet as a challenge.

What a challenge is yours! To so labor, live and pray in our midst as to make faithful children of God out of the raw material which we know we are; but, Father, we hope we shall correspond with your guidance.

May all your years at Sacred Heart be happy years. May the fruitful lives of your grateful students here bring peace and joy to your generous, kind and fatherly heart.

Classes

Religion, the core of Christian life, is being acquired by these Seniors.

All enter into the spirit of Lent and aim to reproduce in their hearts His spirit of expiation and atonement.

The Seniors are captivated by the explicit lecture on the virtue of justice by Father Reingers.

Classes

"Coming Attractions" relating to their various classes are posted on the bulletin board. A guest speaker, a demonstration, an educational movie, a tour, etc., are all a part of our educational system. Eileen and Jenell check so as not to miss anything.

You cannot comprehend thoroughly without asking questions. David never fails us.

One of the advantages of home care over hospital care lies in providing an attractive and homey atmosphere for the patient. Seniors display their miniature bedrooms - a project of the Home Nursing Class.

Library

Efficient service under the guidance of Sr. Marguerita makes our English assignments a pleasure.

The doors are always open for group or individual research. Late hours find Nedrell Wiltz busy, but interested.

Moments of reminiscing and aspiring toward leisure time activity may be done in the library. David, Herman and Angelina make use of such moments.

Our library provides knowledge in many ways. Our collection of records includes symphonies, operas, jazz and folk music, dramatizations of plays and famous events in history, authors and their works. Betty selects her favorite dramatization - Macbeth.

David avails himself of the copious supply of reference books while Eileen begins another biography.

We're never too busy for an exchange of pleasant words as we change classes. Michael, Carolyn, Wilton and Eileen are leaving our latest addition - a new classroom and Science Lab.

Chemistry

Carl, Robert, and Herman are examining crystals $\text{CuSO}_4 \cdot 5\text{H}_2\text{O}$ under the micro-projector.

How we hope it will be 90% on this next test.

Wilton Joe is working hard on his theme, "What is in an Atom?" Nuclear energy is very revealing.

Class

Here is a demonstration of molecular structure of carbon compounds.

Jenell, Gloria, and Eileen are determining electrolytes.

Alvin and Michael are producing Hydrogen Chloride.

Enthusiasm runs high in the Senior Class when a detailed discussion is advanced by a student of History, Wade Allen Frelow is arousing thoughts.

Students of American History are keenly interested in the history of the Louisiana Purchase. Mr. Dale Post confirms the location pointed out by Alvin Schexnayder.

Everyday problems are solved in this Mathematics class. These bargain seekers test the ingenuity of their teacher, Mr. George Andrews.

Pronunciation is facilitated by the recently acquired tape recorder.

Seniors are prompt with French translations. Eileen Marchand translates as Ronald Honore reads the story in English.

Mr. George Andrews gives detailed directions on the use of the Slide Rule.

Home Nursing Class

Senior girls display choice menus for the sick. Attractive, appetizing, and nourishing meals were planned for the patients.

Jenell, Nedrell, and Eileen practice the bedmaking techniques.

Sister Mary George presents Carolyn Lewis with the Homemaker of the Year Award.

Girls'
Physical Education
Class

Betty Simien and Julie Friot set up the projector for another excellent First-Aid film.

Matches in tennis, tether, volleyball, and baseball are on the schedule for this afternoon's class. Checking out equipment are Julie, Carolyn, Gloria, Mary Lucille, and Nedrell.

Gloria congratulates Julie on her fine techniques in tennis.

Batter-up, Mary Lucille.
